KENTUCKY SQUABBLE.

Bradley Will Declare Martial Law in the State.

pends Upon the Contests Which Have Been Raised.

A Mob Gathers at Vanceburg and Threat ened the Commissioners for Throwing Out Two Precincts of Lewis County-The Action Reconsidered.

FRANKFORT, Ky., Nov. 14.-Senator Goebel and the democratic leaders are still waiting on the final action of the counting boards of election in Jefferson, Christian, Knox, Johnson and other counties. It is claimed that enough fraudulent votes will be thrown out in these counties to give Goebel a majority on the face of the returns. The city was excited Monday night over a rumor that the governor intends to declare martial law in the event that Knox and Johnson counties are thrown out and that he will refuse to recognize Goebel as governor under such conditions. This rumor of martial law is not generally credited, though there is almost certain to be a serious clash between Gov. Bradley and the claimant.

VANCEBURG, Nov. 14.-Monday was an exciting day in this place, the county seat of Lewis county. An effort was made to throw out the entire vote of the county, which gave Taylor a plurality of 600, on a technicality, it being claimed that the paper on which the ballots were printed was too thin. On this ground the election board last week threw out the vote of Mowers and Burtonville precincts, which gave Taylor 209 plurality, and adjourned until Monday. Word was passed through the county and Monday about 2,000 citizens flocked into Vanceburg and gathered around the courthouse when the election board met at 10 a. m.

News reached the crowd that the commissioners were about to throw there was an angry demonstration. Trouble seemed imminent when it was announced that the election board had reconsidered its action by which the vote of certain precincts had been thrown out, and the entire vote of the county would be counted as cast. An impromptu reception was at once arranged by the crowd.

Louisville, Ky., Nov. 14.-The tangle growing out of last week's election grows worse with each day. Monday was the third day of the official count, but the work of the county boards of canvassers disclosed little information to clear the situation. Chairman Long, of the republican campaign committee, Monday repeated his claim of a plurality of 3,111 for Taylor based on official returns from 110 counties and unofficial returns from the remaining nine. The democratic papers and leaders here have ceased to give figures, but specials from Frankfort quote Candidate Goebel and other party leaders as saying they are confident of the success of the Kenton county man.

The complexion of the returns to be presented to the state board of election commissioners when it meets in Frankfort next month still depends upon the determination of the contests which are being raised in several parts of the state, notably the strongly republican counties of the of the Eleventh district where the democrats claim tissue ballots were used. These contests have aroused much feeling in the localities affected. One of them involves the vote of Knox county which gave Taylor 1,398 plurality.

Monday Barbourville, the county seat, was visited by hundreds of people interested in the result, their avowed purpose being to see that justice is done. Counsel for Candidate Taylor began action in the Knox county circuit court to compel the county election officers to certify the vote to the state board of election commissioners. The contention is over 42 ballots from the first precinct, but the petition filed by Taylor's counsel asserts that the election board's purpose is to throw out the entire county. Judge Brown granted a temporary injunction against such action. Johnson and Lewis counties are affected by the democratic charges of irregularities, and there, too, legal complications are likely to arise.

At Hopkinsville a contest over a precinct which gave Taylor a plurality of 95 is delaying the official return of the vote of Christian county which gave Taylor a plurality of 750.

Slow progress was made in the count of Louisville and Jefferson county Mon- election,"

day, the commissioners being at work on the Third ward when they adjourned until Tuesday. Both sides are fighting every inch of the ground. A number of precincts are in controversy Reported at Frankfort That Gov. on the grounds of alleged irregularities. In one such case, the seventh precinct of the First ward, the anti-Goebel people Monday secured an order from Judge Toney to compel the precinct officers to sign the tally sheets. THE RUMOR NOT GENERALLY BELIEVED | The Goebel people, however, claim the ballot box had been opened before it reached the county election officers. The Determination of the Election De- The vote, so far as canvassed, shows little change from the official figures.

THE VOTE IN OHIO.

Unofficial Returns Received From Al Counties in the State Gives Nash, for Governor, a Plurality of 50,512.

COLUMBUS, O., Nov. 10 .- The first abstract of votes by counties received at the secretary of state's office Thursday indicate that A. W. Patrick, dem., may have been elected lieutenant governor. COLUMBUS, O., Nov. 10.-The statisticians at the republican headquarters have been busy all day Wednesday and Wednesday night endeavoring to secure some accurate figure on the plurality of Judge Nash, the republican candidate for governor, and Wednesday night an unofficial table of pluralities by counties was completed. This shows that in 57 counties Nash, rep., has 84,399 over McLean, dem., and in 31 counties McLean has 34,035 over Nash. This gives Nash over McLean in the state 49,502. It is not believed the official returns will make any important change in these figures.

The republican figures on the legislature are: House-republicans, 62; democrats, 44; doubtful, 2. Senaterepublicans, 18; democrats, 11; doubt-

LEXINGTON, Ky., Nov. 14. - Nearly 40 students of the Kentucky univer have typhoid fever, and it has beer me necessary for the faculty to take decided steps toward checking it. President Cave says that the epidemic has been checked and there is no further cause for alarm, and that every one of the patients is now rapidly improving. There has just ended one of the hardest fought campaigns in the State. The SIGNAL espoused the cause of homocracy, because it believed it right; and granted every one else the privilege of supporting whom they pleased. We now, will drop politics until aonther campaign, and try to give you all the general news we can.

DECENT Democrats have been subjected to embarressment and humiliation of arrest by Federal authority charging intimidation of negro voters and then dismiss the warrant on motion of the prosecution. But up to this good moment we have not heard of any Republican voter-buyer being "grabbed" and held over for further trial. Rockcastle could furnish several good cases. For instance, one old colored man was promised \$5 by a prominent church member, and after the old negro voted, the good Samaritan would only pay him one dollar; while another one of the colored race got \$1 25. With the same goodly spirit, the same dear brother in Christ gathered two white men from the corn field, and good ewes of J. W. Redford at threw light on the subject with silvoted.

THE Louisville Dispatch would have gladly supported Goebei, and as warmly and as enthusiastically as it did his his election law, had it not been that Bill Haldeman and lots of corn at \$1 50 per barrel; foolish enough to believe that it hogs at \$3 60. can live, grow powerful and rich abusing the Conrier-Journal. Stewart, O'Neal and Duke work themselves into a frenzy in their contempt for W. N, Halderman and Henry Watterson, the latchet of whose shoes they are not worthy to unloose. Remember gentlemen, remember, "That abuse is not argument, contempt is not criticism; and a reasonable people will not consider a cause just that, defends itself by vituperations,"

WE have always held Hon. A E. Willson, of Louisville, who traveled with Gen. Taylor on his special car, in high estimate, but we think more of him now than ever because of his timely rebuke to the incendiary speakers in the following strong language. "I have no use for a man who talks about wading in blood. He is a fool. Men in the nineteenth century think and act without shedding blood. The men who talk of blood are ignorant and out of date. People pay no attention to such frothing." Now let big-wig, Deboe and cock-eyed Geo. Denney paste that in their hats and then give Charley Bronston and the Louisville Dispatch a dose of squint essence of squat-rot.

It behooves our people to "get a hustle on themselves." if they expect to get the Southern' Railway to run through our county via Brodhead, there should be a move made for concerted action in rendering all possible assistance towards securing the right of way by donation and purchase. Danville the right away for R. R. and Stanford are leaving no stone unturned in their efforts to get the road to come their way, and in case it does, it will miss our county almost entirely. It would be of vast benefit to us in many ways, to have this road, and not the least would be the amount of taxes it would pay the county. All Rockcastle, and Brodhead especially, is interested in the building of the Southern Railway connection between Burgin and Jellico. Perfect Confidence.

Perfect confidence is desirable between couples engaged to be married, but it is not always that the young woman has as fine an opportunity to establish it as did a Norristown belle, to whom a wealthy bachelor had been paying assiduous attention. After worrying her a good deal about how many young men had been in love with her, and how many she had been attached. to, he asked her to marry him, adding:

"Now let there be perfect confidence between us. Keep nothing concealed from me."

"Certainly," replied the giddy girl; "let us have no concealments;" and, jumping up, she snatched the wig he wore from his head and danced around the room with it.—Philadelphia Record.

TAKEN AT HIS WORD.

The Purchasers Complained of a Lack of One of the Elements in the Oil.

The faculty of terse and forceful speech The faculty of terse and forceful speech is ordinarily an advantage, but occasionally a man gets hoisted by his own epigram. A hustling young New Yorker who was recently established in a branch of the oil business, had set out to get the patronage of a certain firm. The head of the concern was reluctant to make a change.

"The oil we have been getting is not unsatisfactory," said he, "and I fail to see why we should make a change. Are there any extra inducements you can offer? How do you propose to improve on the old quality?"

do you propose to improve on the old quality?"

"In this way," was the prompt answer.
"I propose to give the business my personal attention. I intend to put some of my brains into every barrel of oil we send out."

The rejoinder pleased the old gentleman, and he became a customer.

A few months later the hustling young man was obliged to make a journey, and in his absence, through some oversight, the quality of oil was allowed to deteriorate. It was quickly noted, and a letter now on file in the office records one of the protests. It reads: "Gentlemen: When we were induced to use your product we were assured that Mr. Blank put some of his brains into every barrel of oil. We deeply regret to observe that Mr. Blank is threatened with paresis."—Washington Star.

"I feel it my duty to write and let you know what your medicine, '5 Drops,' has done for me. I have had rheumatism about 18 years, but was able to be up most of the time, until a year ago last May, when I was taken down and not able to move about. About six weeks ago I saw your advertisement and wrote for a sample bottle. After taking a few doses, it did me so much good that I ordered some more for myself and friends and in every case it has done wonders and given perfect satisfaction. Dr. Woodliff, my family physician, who has had rheumatism 15 years, is taking '5 Drops,' and says it is the most efficient rheumatic medicine he has ever used. May 31, 1899."

HERE are women everywhere who suffer almost constantly because they cannot bring themselves to tell all about their ills to a physician.

Such women can surely explain their symptoms and their suffering by letter to Mrs. Pinkham at Lynn, Mass., for the confidence reposed in her has never been violated. Over a million women have A WOMAN

been helped by her advice and medicine. Mrs. Pinkham in attending to her vast HELPS correspondence is assisted by women only. If you are ill, don't delay. Her WOMEN reply will cost you nothing and it will be a

practical help as it was to MISS ELLA E. Brenner, East Rochester, Ohio, who says: "I shrunk from the ordeal of examination by our physician, yet I knew I must have treatment. My troubles were backache, nervous tired

feeling, painful menstruation and leucorrhœa. I am so grateful to you now that I am willing to have my name published to help other girls to take their troubles to you. Lydia E. Pinkham's Vegetable Compound used as you wrote me has made me entirely well and very happy. I shall bless you as long as I live." Mrs. Pinkham receives thou-

sands of such letters from grateful women.

MISS NELLIE RUSSELL, of 138 Grace St., Pittsburg, Pa., in a letter to Mrs. Pinkham says: "From childhood I suffered from kidney trouble and as I grew older my troubles increased having intense pain running from my waist to my womb and the menses were very painful. One day, seeing your advertisement in one of

our papers, I wrote to you. "When your reply came I began taking your Compound and followed your advice and am now in perfect health, and would advise any lady rich or poor to take Lydia E.

Pinkham's Vegetable Compound, which I can praise above all other remedies. It is a wonderful help to women."
